DETAILED ACTION

Allowable Subject Matter

Claims 10-12 and 15-23 are allowed.

Reason For Allowance

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or suggest a glass composition having the composition as recited in the instant claims, which result in the recited properties specifically the refractive index, Abbe's number, T_g, and climate resistance.

The closest prior art is deemed to be WO 00/21895 A1 by Onozawa et al. Onozawa et al. disclose a similar composition but does not teach the range of the climate resistance. Applicants have submitted a declaration showing that a glass having a composition within the recited ranges of components does not necessarily have the climate resistance as recited in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
